Subject: Track Access Point Project

Hi Julia,

Lovely to meet you yesterday. Ive attached the Fisher Hill Way slide from my track access pack, there are about 7 access points around Radyr all with variations of this information.

If you think there is anything missing, please say. I haven't included the Old Church Rooms etc as yet, until you say it's OK to add them. If you'd like me to come and talk about the project, I'm happy to do that.

If you or any of your colleagues would like to be on the 'People to Help' section, then that would be much appreciated too. It would be useful to know:

- Their phone number
- When they are OK to be contacted
- Where they would travel to – so would they go to only Radyr Station proximity, or would they help at Llandaff North, or Fairwater, or indeed any further!

I will resend the email to Mary Evans too, her team in the hall were fabulous!

I look forward to hearing from you in due course.

Kate
