Subject: Plaque for the new solar powered streetlight in Drovers Way Park

Following the installation of the new solar powered streetlight in Drovers Way Park it is thought that it would be appropriate to attach a plaque to it indicating that it was jointly funded by the Community Council and by Parc Radyr Management Company; in a similar way that the plaque at the entrance to the adjacent playground records and recognizes the contributions from the Community Council, the PRMC and the dedicated crowdfunding scheme towards the cost of refurbishing the playground.

I suggest that a plaque be made that simply states: "This streetlight was jointly funded by Radyr & Morganstown Community Council and Parc Radyr Management Company". The plaque could then be attached to the lamppost.

I attach two photos of the new streetlight: one showing its location relative to the playground and the second being a close-up showing the circumference of the post (in cms) where a plaque could be attached (the photo will need to be expanded to show the recommended attachment points for the plaque).

I also attach a photo of the existing plaque at the entrance to the playground in Drovers Way Park, which could be used as a model for a new plaque.

Please let me know if you support this proposal.

Regards
Anthony Jenkins
Parc Radyr Management Company
