As a direct debit customer, you already benefit by being on our cheapest payment plan.

Information to help you decide

To make it easier for you to choose, your current prices and renewal options are shown above.

Our For Business tariff offers competitive prices on fixed term contracts from 1 to 3 years

This tariff consists of two parts. The first is a fixed price element, the majority of which is for the energy we supply you, so this protects you from rising wholesale energy costs. The second is a variable element, which is linked to changes in external industry costs such as network, social and environmental obligation costs that may increase or decrease throughout the tariff term. If these variable costs change, the charges payable by you will be updated automatically on a quarterly basis.

If you do nothing

If you don't choose a new ScottishPower tariff or move to another supplier, you will move to our Standard Variable tariff prices, below from 1st June 2026. Standard Variable tariff prices are likely to be higher than fixed term tariff prices and may vary from time to time.

Standard Variable Tariff**

Tariff End Date	n/a
Daily Service Charge	100.00p per day

All Units

5.810p per kWh

**** All of the caveats below apply**

- These prices were correct as of 1st March 2026.

- Full terms and conditions apply to all our tariffs and are available at scottishpower.co.uk/small-business/gas-electricity-tariffs

- These prices are available for acceptance until 31st May 2026 unless withdrawn by ScottishPower Energy Retail Limited before that date. The prices offered are based on your business's current circumstances and should these circumstances change, then the prices may alter to reflect this. All prices shown on the tables above exclude VAT and Climate Change Levy (CCL), which, where applicable, will be charged at the prevailing rate.
